## FAQ

### **1. How do I measure the return on my investment?**

Our campaigns include monthly analytics to measure traffic to your websites and social media pages as well as monthly meetings. Our campaigns drive the maximum number of visitors to your sites and businesses because of the integration of our multimedia campaigns. You measure success by traffic, phone calls, and email inquiries.

### **2. Why should I go with your company?**

Mediasophia INC is a unique holistic total multimedia marketing firm that has represented clients as diverse as Today in America with Terry Bradshaw, In focus with Martin Sheen, In View with Larry King, many top doctors, lawyers, and other companies. If celebrities, and other multimillion dollar companies trust us to deliver results for them you can rest assured your investment will reap great rewards. You are in good company!

### **3. How much will I have to be involved in the process?**

Mediasophia handles all technical and creative aspects of your Internet marketing from Google ads to web design, graphic design and local search engine keyword optimization. We only need a minimal amount of investment from our clients in terms of time and we provide instant 24/7 access. Our clients love the automatic aspect of our campaigns. Once we start there is a beautiful machine in place for you that never stops because the Internet never sleeps!

### **4. Why do I need a new website?**

As part of every campaign we create organic ingredients to maximize success. Just like a master chef must create all dishes from scratch, our team will craft your mobile-friendly website as part of a sophisticated and integrated campaign. We prefer not to work with sites constructed by others because we cannot ensure their full functionality in terms of optimization. A website is a living, breathing, dynamic organism that must always be kept up to date and represents your goals 24-7.

### **5. How soon will I see results?**

Within 5 business days you will see new social media designs, new articles, blog posts, press releases and many other elements of your campaign. Because we are creating a multimedia approach for your company you will not only begin receiving more traffic and phone calls, but also a much more complex and holistic profile for your reputation! The bottom line: Results like an increase in web traffic and phone calls will begin within 10-20 business days!

### **6. How long does the campaign last?**

All campaigns have a minimum one-year commitment to ensure the maximum ROI and application of all our features! Upon conclusion of this period the campaign is automatically renewed on a monthly basis.
